

Routines Rules	When entering the classroom	Bathroom	Ipads and Instruments	Transitions	When in the classroom
Be Respectful and Kind	Find a spot on the carpet with a 'O' voice and save all questions until class starts when you raise your hand.	If there are two people in the bathroom, wait your turn and be patient in class.	Wait your turn when we use ipads, or instruments and support your classmates by keeping a 'O' voice.	When coming from P.E. or going to P.E. We must follow the 'O' voice rule in the hallways.	Raise your hand and wait your turn to speak in the classroom.
Be Safe	Walk in the music room. As soon as you enter, it should be walking feet all the way until you sit down.	Make sure to follow all bathroom rules, and wash hands upon leaving the bathroom.	Never run or step over instruments or ipads on the ground. Both are easily breakable and you could hurt yourself as well!	When you come from P.E. get a drink in the classroom and then find your seat with walking feet.	Stay seated unless we are doing a movement activity. If we are moving around the classroom make sure to follow directions and listen to the teacher.
Work Hard and Do Your Best	Find your assigned seat and show body basics.	When you are in the bathroom, do so in a timely manor and immediately return to class when done.	When it is your turn at the ipad or instrument, work your best to follow the directions and play only when the teacher says.	When we get in line for leaving music class work your best to immediately show a 'O' voice and straight line so we can transition to next class.	Participate in class and work your best to follow directions to all tasks and activities.
